

# What Do We Want from Obama?

Key of D

Author: Vicki Ryder, revised in Madison — July, 2010

Tune: "99 Bottles of Beer on the Wall"

**What** do we want from Obama,  
The **man** we'd like to love?  
We're **here** to tell you what we wrote  
To **him** on change-dot-gov:

We **want** our troops brought home real quick  
And **all** the wars to cease,  
'Cause **bombs** and occupation  
Are **not** the way to peace.

**Fair** and equal treatment  
For **folks** both straight and gay,  
An **end** to corporate bailouts...  
**Those** with the most should pay!

**Single**-payer health care,  
Or **else** you'll hear us rage,  
And **jobs** that stay right here at home  
And **pay** a living wage.

**Restore** our civil liberties!  
We **don't** know where they went...  
An **end** to the label of terrorist  
For **those** who dare dissent.

**Stop** the use of torture.  
**Justice** must prevail!  
But **here's** the thing that we want most –  
**Cheney** and Bush in jail!
