

Turkey in the Rain

Tune of Turkey in the Straw

Oh-h the multcorporations have a lot of human rights (*pause*)
They are legal persons
Though they can't wear tights
They can rocket to the moon and steal the gold that's buried there
And no one can tell them that it's just not fair.

Chorus: Huge Corporations, rich CEO's
Running the planet under our nose
While congress and the president
Sit on their thumbs--
They just do what they're ordered
And the money comes

Oh-h our lives are run by NAFTA and the double U T O
Trade can go where labor's cheapest and the home folks know
That their jobs have left the country and their lives have gone to pot
But the corporations' happy living on it's yacht

If-f-f you want a drink of water do not stand out on the plain
With your mouth wide open like a turkey in the rain
Cause you'll get a bill from Pepsi or the Coca Cola crews
They've bought up every drop and you must pay your dues!

Chorus

You-u-u may ask yourself, as citizens, whatever can we do?
Corporations are so powerful
And ruthless too
We'll take away their personhood (spoken) that'll really get their goat
And amend the constitution like we did with women's vote!
Yes! Amend the constitution like we did with women's vote!
