

Say No to GMOs

Tune: "It ain't going to rain no more"

Lyrics: Barbara Barton & Metje Butler, Madison Raging Grannies

1. We grow corn, it fills our fields
We find it everywhere
But people of the World don't want our food
If GMOs are there.

Chorus

Put **on** those poisons to our fields
The plants they will survive
With GMOs they stay alive
While the world around them dies.

2. New trade agreement with Korea
The people there protest
They say no to GMOs
But we say we know best

3. Don't you worry GMOs are fine
Monsanto says it's so,
Then **why** do they **fight** a **label** law
Spending lots of dough.

Chorus
