

End The Madness Now

Start on C

Tune, Ten Little Indians revised by Kathy Miner 4/26/12

One million, two million
Three million soldiers
Marched off to war, and they got no older
That makes us sad, while it makes us bolder *(pause)*
End the madness now!

One trillion, two trillion
Three trillion dollars
Wasted on war 'cause we didn't holler
You go ahead, but we won't foller *(pause)*
End the madness now!

Five thousand, six thousand,
Seven thousand suicides
Killed by the wounds that lurk on the inside.
Brain trauma, PTSD **wreck** so many lives *(short breath)*
End the madness now!

Their children, my children
Your children bleeding
Slaughtered for slogans that have no meaning
Let's finally say what the world is needing *(pause)*
End the madness now!
