

## End The Madness Now

Start on C

Tune, Ten Little Indians revised by Kathy Miner 4/26/12

One million, two million  
Three million soldiers  
Marched off to war, and they got no older  
That makes us sad, while it makes us bolder *(pause)*  
End the madness now!

One trillion, two trillion  
Three trillion dollars  
Wasted on war 'cause we didn't holler  
You go ahead, but we won't foller *(pause)*  
End the madness now!

Five thousand, six thousand,  
Seven thousand suicides  
Killed by the wounds that lurk on the inside.  
Brain trauma, PTSD **wreck** so many lives *(short breath)*  
End the madness now!

Their children, my children  
Your children bleeding  
Slaughtered for slogans that have no meaning  
Let's finally say what the world is needing *(pause)*  
End the madness now!
