

Conservation

Tune: When I'm 64

Key of E

1 1/2 minutes

What will we do?
Where will we go
When the ozone's gone?
Don't you know that fossil fuel has got to go
And our conservation's too slow?
How can we wake those **senators** up
Before it is too late?
Grannies and children, **ordinary** people
We'll decide our fate.

What will we do?
Where will we go
When the ozone's gone?
Don't you know it's underground we'll have to stay
On that sad and sorrowful day
Fish in the sea, birds in a tree
We will help, we vow
Grannies and children, **ordinary** people
SAVE OUR PLANET, NOW!
