

What Do We Want from Obama?

Author: Vicki Ryder, revised in Madison — July, 2010

Tune: "99 Bottles of Beer on the Wall"

Key of D

What do we want from Obama,
The **man** we'd like to love?
We're **here** to tell you what we wrote
To **him** on change-dot-gov:
We **want** our troops brought home real quick
And **all** the wars to cease,
'Cause **bombs** and occupation
Are **not** the way to peace.
Fair and equal treatment
For **folks** both straight and gay,
An **end** to corporate bailouts...
Those with the most should pay!
Single-payer health care,
Or **else** you'll hear us rage,
And **jobs** that stay right here at home
And **pay** a living wage.
Restore our civil liberties!
We **don't** know where they went...
An **end** to the label of terrorist
For **those** who dare dissent.
Stop the use of torture.
Justice must prevail!
But **here's** the thing that we want most –
Cheney and Bush in jail!
