

## Where Have all the Good Jobs Gone?

Key of G

Tune: Where have all the flowers gone?

Lyrics: Gerri Martini, Madison Raging Grannies

Where have all the good jobs gone?

China, India, Vi-et-nam

CEOs are a greedy lot

Jobs sold and bought! (Cut it short)

Congress gives them big tax cuts

- Loop holes from the IRS

We get the royal screw

What can our workers do?

Where have all the unions gone?

Our laws are so very wrong

Sal'ries keep on going down

Benefits can't be found

How can families live this way

- Corporations now hold sway

We get the royal screw

What can our workers do?

A new world is calling out

Sun and wind for energy

Our communities will control

our destinies

This new plan makes perfect sense

- Restore pow'r back to the land

We'll make the world anew

It's what our workers do.
