

World Heat

Tune: Steam Heat — revised in Madison 2010

We've got (clap clap) *whew!* world heat!
We've got (clap clap) *whew!* world heat!
We've got (clap clap) *whew!* world heat!
But we're hooked on oil, and don't know how to quit.
 The climate is disrupted
 I'm more than just disgusted
 The arctic ice is melting fast
 The storms are terrific
 Goodbye South Pacific
 And old Bangladesh / will never last.

We've got (clap clap) *whew!* world heat!
We've got (clap clap) *whew!* world heat!
We've got (clap clap) *whew!* world heat!
But we're hooked on coal, and don't know how to quit.
 We watch the weather worsen.
 The farmers are a-cursin'
 The drought is doing in their crops.
 But there it's raining madly
 With floods rising badly
 Till the water hides / streets and car tops.

We've got (clap clap) *whew!* world heat!
We've got (clap clap) *whew!* world heat!
We've got (clap clap) *whew!* world heat!
But we're hooked on oil, and don't know how to quit.
 But look at the horizon
 Windmills are a-risin'
 The blades are goin' round and round.
 And over in the ocean
 The tides are steady motion
 And that old sun / keeps shinin' down.

We've got (clap clap) *whew!* world heat!
We've got (clap clap) *whew!* world heat!
We've got (clap clap) *whew!* world heat!
We **gotta** find a way to change the way we live.
We're **gonna** find a way to change the way we live.
We'll find a way to change the way we live..... *YEAH!*
