

Water Song

Tune: Three Little Fishies Original lyrics by Victoria Grannies, revised by Madison Grannies

It's **wet**, it's **wild**, it's **wonderful**, it **comes** from the tap.
We **gotta** have assurance that it **won't** be full of crap.
Polluters must be fined, made to **clean** up every time
Mess with Mother **Nature**, she'll get **even** for the crime.

CHORUS: (sung slightly faster)

Gargle with it, gurgle in it, splash it in the sink.

***Clean** water is the best treat you'll ever find to drink.*

The sun sucks up the ocean; it comes down free as rain.

*Nature freely sends it for **everybody's** gain.*

It's wet, it's wild, it's wonderful, it **makes** us want to play
Industrial pollution can take **all** our fun away
Water is a basic need we **should** not have to buy
It belongs to **everyone** 'cause **no one** owns the sky

CHORUS: (sung slightly faster)

Gargle with it, gurgle in it, splash it in the sink.

***Clean** water is the best treat you'll ever find to drink.*

The sun sucks up the ocean; it comes down free as rain.

*Nature freely sends it for **everybody's** gain.*
