

To Be Sheltered -Refugee version

Lyrics by Sheila Plotkin

Sung to "*Simple Gifts*"

CHORUS: 'Tis a right to be sheltered
To be out of the rain
To have food and warmth and safety once again.
In America, there must be room to make this right
To bring frightened refugees out of the night

Fear drove them to our border towns
We cannot be silent while they suffer and they drown
Here, gone, a child ripped away
Reunite them now; no more delay.

CHORUS:

We need to open our arms wide,
And tell those in power to put punishment aside
A child needs love, not a cage
The Grannies are here to share your rage

CHORUS:
