

Our Land Together

Tune: This Land is Your Land, Woody Guthrie

Lyrics: Marjorie Matthews & Joy Morgen & others

1. This land is our land, Our Land Together!
And when we share it, it just gets better!
When we look out for our friends and neighbors,
That's what America should be!
2. This land has people of all religions,
We're all Americans, beneath diverse skins.
If you wear head scarves or hold a rosary,
This land was made for you and me!
3. This land is queer folk, and newly here folk,
Female and male folk, dark-skinned and pale folk;
With our commitment to love and liberty,
We'll **re**-make this land for you and me!
4. From many countries, we've brought traditions;
And we can share them here in Wisconsin!
Forward together, in peace and harmony,
This land was made for you and me!
5. This land holds some truths to be self-evident,
That **inequality** is **un**-American!
We live together and we can all be free,
When this land achieves its destiny!
6. Repeat first verse
