

War is the Worst Threat

Tune: "Billy Boy"

Lyrics: Vicki Ryder 2021, revisions by Raging Grannies of Madison & Dane County

Well, the **climate** is a-**changin'**
And the **Earth** is gettin' hot,
We've got **drought**, **wildfires**, and even mo-ore
We've got **climate** refugees,
And the **rising** of the seas,
But the **worst** threat of **all** is we've got wa-ar.

Well, they **say** it's up to us
To **change** our **lightbulbs**, don't eat meat,
And not **drive** so **often** any mo-ore
But those **military jets**
Are a part of the **real** threat
Of **environmental damage** from their wa-ars.

They spend **trillions** on the **weapons**
To **destroy** our Mother Earth
While those **war profiteers** keep makin' mo-ore
Claiming **it's** for our defense
But at **that** we take offence
'Cause we **know** that our **worst** threat comes from wa-ar.

And the **ones** who know it best
Are the **vets** who've been to war
So we're **rising** with one **voice** to say "No Mo-ore!"
For it's **plain** for all to see
That there **is** no Planet B --
To save the **Earth**, we have **got** to end all wa-ar!
[slower, watch director] To save the **Earth**, we have **got** to end all wa-ar!
