

Bring Back My Planet

Tune: Frankie and Johnny

Key of A

Our air miles make holes in the ozone
Our lifestyle makes lots of debris
They tell me the planet's in danger
Oh bring back my planet to me
She's Mother Earth, and we've been doin' her wrong

Our cars emit unburned organics
Monoxide and nitrates and lead
But it's nearly two blocks to the bus stop
So we'll drive till the planet is dead
She's Mother Earth, and we've been doin' her wrong

The public utilities work hard
Tap water is tasty and pure
So why do we buy it in bottles
That only are making us poor?
She's Mother Earth, and we've been doin' her wrong

Big businesses don't own the sunshine
They don't make a buck from the breeze
So they plunder the planet for profits
Oh bring back my planet to me
She's Mother Earth, and we've been doin' her wrong (x2)
