

## **Rage to End All War** (2009)

Key of E, Start on B

Tune: "Battle Hymn of the Republic"

**Chorus #1:** No more military action  
We declare dissatisfaction  
With those who say they'll end it  
When they do it more and more  
We rage to end all war.

We're the Raging Grannies and we want you all to know  
That war is not the way to peace and we must all say NO!  
We've seen it time and time again — **war's not** the way to go!  
We rage to end all war!

**Chorus #2:** Barak is prettier than Georgie  
But we deplore this war-time orgy  
With Granny heart and voices strong  
We'll rage with all our might ...  
Until we end all war!

We put away our knitting, tuck the grandkids into bed  
Throw on our shawls and aprons, put our hats upon our heads  
Inspired by the suffragists, we do not lightly tread  
We rage to end all war!

**Chorus #2:** Barak is prettier than Georgie....

Obama now is escalating in Afghanistan,  
And all of us must do our best to stop him if we can  
How many more must die to carry out these bloody plans?  
We rage to end all war!

**Chorus #1:** No more military action....
