

## **Bicycle Song**

Tune: Daisy, Daisy

Raging Grannies Songbook, modifications by Phyllis Noble, June, 2010

Daisy, Daisy, bicycling's good for you  
Driving's crazy, cars spew out CO2  
We know we should not disparage  
An elegant motorcarriage  
But take a hike, or ride a bike  
The environment will love you!

Maybe someday we'll have commuter trains  
We love our bike paths, more and more bicycle lanes.  
Who **needs** an eight-lane highway?  
Why can't they do it our way?  
We'd clean the air, have dough to spare  
If only we used our brains.
