

# Please Hear, You Right Wing Lawmakers

Key of A minor, Start on A

Tune: God Rest Ye Merry Gentlemen

Revised words by Rebecca Alwin

Please **hear** you right wing **lawmakers**  
You've **filled** us with dismay  
At **all** the things you've **done** to us  
Since **last** year's holidays  
You **don't** listen to constituents/ **bribery** shows the way  
(softer) With no tidings of comfort and joy, comfort and joy,  
With no tidings of comfort and joy.

Please **look** you right wing **lawmakers**  
Why **is** it you **can't** see?  
Enacting bills **without** support  
Is **not** democracy  
We **want** all voices **to** be heard/ **because** speech **should** be free  
(staccato) And not **bought** by the corp'**ratocracy**, can't you see  
They **depri-ive** us of comfort and joy.

Good **people help** return our state  
To **honest** policies  
**Ignore** those awful **TV** ads  
**Financed** in secrecy  
**Elect** folks who love **public** schools and care for you and me  
(joyfully) Then we'll all have more comfort and joy, comfort and joy,  
Then we'll all have more comfort and joy!
